## Physician To Join GC Emergency Room Staff

Dr. Lemons to Serve 2 Nights Weekly; 2 Others Taking Exams

Dr. Redie W. Lemons has been appointed to assist in staffing St. Elizabeth Hospital emergency room service, Sister Mary Moore, hospital administrator, announced today.

He will begin his duties here about mid-January.

A graduate of Fisk University and Meharry Medical College, Dr. Lemons is in his third year of a general surgery residency at Homer G. Phillips Hospital, St. Louis.

Dr. Lemons' appointment will be for only two nights a week; however, other appointments of a similar nature are expected in the not too distant future, Sister Mary Moore said.

Goal—24 Hours, 7 Days

"Ultimately, 24 hours-a-day, seven-days-a-week coverage of the emergency room by a resident physician will be achieved. Two other doctors interested in staffing the emergency service are scheduled to take the Illinois Medical Examination this month," she commented.

The emergency room has as its objective to provide treatment to emergencies which are brought to the hospital.

"The resident physician will furnish emergency treatment to the patient in each case at the specification of the family physician, in accordance with the procedures established by the Emergency Room Committee."

## Two-County EOC Boards to Meet On Application

A joint meeting of the executive boards of the Madison County Economic Opportunity Commission and the St. Clair County Opportunity Commission is scheduled for 7:30 p.m. Thursday at 219 South 26th street, East St. Louis, it was announced today by Hugh Halstrom, Madison county commission vice-president.

Hairston said this morning that the combined boards' session was arranged during the week-end to work out details for a joint application for federal funds to provide an information service and canvassing project for elderly persons, eligible for Medicaid, who reside in the two-county area.

He explained that the Madison county group is to join with the St. Clair commission in the project as the latter's anti-poverty program already is established and funding probably will be available for the shared Medicaid project.

Hairston added that Madison county's application for federal anti-poverty funds which has been stymied while commission members acquired the "in kind services" portion of the application, will be submitted at the Office of Economic Opportunity's regional office in Chicago today.

Levee District Sewer Fee Set Without Collinsville

Currently-proposed rates—on which money rental fees will be assessed for participation in the East Side Levee and Sanitary District sewerage treatment program—have been computed by Collinsville residents as potential users of the sewerage system, a levee board official said today.

A reduction in the present rate schedule will be effected if the levee district system is held holding the city of Collinsville to the contract it signed with the levee district last summer, agreeing to hook into the levee district lines for treatment and disposal of sewage from Collinsville, according to John Sprague, levee board attorney.

In Sprague's opinion, the cost will be 90 cents a month for most homes, with Collinsville participation, or \$1.15 without Collinsville.

At the same time, Sprague told the Press-Record that the board will make every effort to hold Collinsville to its commitment to hook into the new levee district treatment system and thus share the cost through payment of monthly rental for the privilege.

Seventeen building permits, including nine for new homes, were issued during December in Nameoki and Chouteau townships, with values totaling \$187,080.

Twelve permits, with eight homes, were for Nameoki township with values of \$162,400. Five others, including one home, were for Chouteau township with values of \$24,680.

They were among 46 permits issued in Madison county during the month by Jack R. Clifford, building official, containing values of \$1,282,338.

Included were 73 homes, \$1,188,300; 10 garages and additions, \$33,400; one duplex apartment, \$20,000; five business-complexes, \$29,600; and one advertising sign, \$1000.

Permits for homes in Nameoki township were issued to John W. Moser, brick in Wellington Heights, \$20,000; Charles J. Winberg, stone, \$12,000; Dean Peters, brick in Arlington Heights, \$20,700.

Permits for homes in Chouteau township were issued to William Burchell, construct a machine shed to store farm machinery, \$780; Robert N. Dunn, two mobile homes in Tidewater Place, \$3300 and \$4000; Jesse E. Boyd, garage, \$1000; and Harold Jackson, brick home in Reuters Little Ranches, \$11,000.

His condition was listed as fair and he was transferred to Jewish Hospital, St. Louis.

The Busby girl was admitted to the hospital here with cuts to her head and multiple cuts and abrasions to both shoulders and back. She was reported in good condition.

## Compliance Promised In State Dump Case

Venice Concerned Over Charges of Burning at Dump; Use GC Landfill

Mayor John E. Lee of Venice charged the state citation, burning at the city's old open dump. He told the Venice city council that he and City Attorney Harry E. Harman will study means of eliminating the threats of a state citation that can run up to \$200 a day for 18 days.

Lee said the Illinois State Air Pollution Control Board "apparently wanted to make an example of someone—and we are it."

First step in the city's defense against prosecution of a circuit court proceeding—which Venice is charged with open burning at the city dump on six days in September and October—probably will be a written plea that the city will continue use of the Granite City landfill for trash and garbage disposal.

"It is possible," the mayor said, "that if we assure the state that we are ever dumping on our old dump grounds again, and pledge ourselves to the use of a landfill until we can install an incinerator, the charges might be lifted."

Permanent Guarantee Lee pointed out that such a plea also would guarantee the city a landfill meeting state regulations if the time comes when the city can no longer use the Granite City dump.

Lee said the city is planning to meet with representatives of the Venice board and officials of the Illinois Department of Conservation in the hope of settling the circuit court proceeding.

Lee said he was told that nothing could be done about dismissing the proceedings.

The mayor said he attempted to convince the pollution board representatives that burning, for the city of Venice is charged, actually is a garbage disposal problem.

## Madison Letter Carriers Protest Lux Appointment

An appeal to Postmaster General Lawrence O'Brien to rescind the appointment of Richard Lux, assistant postmaster at the Madison post office, was made in a letter from the National Association of Letter Carriers, Eugene C. Noud, president of the union, said today.

Lux, a son of Percy Lux, city clerk of Madison, was appointed to the assistant postmaster job in late January 1965.

Noud said the postmaster general's office is the only remaining authority to which such a request can be made since a grievance filed with the Chicago regional post office has been rejected on a technicality.

He said Donald L. Swanson, regional director, notified him that the grievance was turned down because it had not been filed within the 30-day deadline required under the department's agreement with the carriers.

Noud said the appointment of Lux by former Postmaster Harry R. Johnson, who retired in April 1965, "was purely a political appointment."

Lux, he said, had only three years experience as a post office clerk, while each of the other applicants had more than 22 years experience.

"This is a matter of principle," Noud said, "since the seniority and merit system is the only hope of veteran postal workers' advancement. The job should have gone to Lawrence Jones, a letter carrier with 27 years seniority who applied for it. I don't believe postal appointments should be political."

Noud said he first wrote to the U. S. Civil Service Commission Feb. 19, but was referred to the Civil Service Commission office in Chicago and then the regional office where he filed a grievance in September.

## Mrs. Julia Kackley, 73, Dies; Ill 2 Years

Born in Lutesville, Mo., Mrs. Kackley had lived in Venice for 51 years. She was a member of the Venice Methodist Church.

Her husband, Rufus, died in 1909. Survivors include a son, Wesley Edwards, Venice; two stepdaughters, Mrs. William (Nadine) Meehan and Mrs. Marvin (Vivian) McKinney, both of Venice; three brothers, Edward and Henderson Collins of Lutesville, Mo., and Robert Collins, Granite City; three sisters, Mrs. Rosie Shelton, Bernie, Mo., Mrs. Doris (Bertha) Elledge, Lutesville, and Mrs. Emma Harris, Kankakee, Ill.; four grandchildren and one great-grandchild.

Funeral arrangements are given in today's obituary column.

## Father of GC Man Dies at Age 90

Max G. Hacke, 90, father of Fred G. Hacke of 2516 Benton street, died at 1:30 a.m. today at DeSoto Hospital, St. Louis. He had been a patient in the hospital ten days, suffering a kidney ailment. He lived at DeSoto, Mo.

Other survivors are two daughters, Mrs. V. L. (Geraldine) Gould of Chula Vista, Calif., and Mrs. M. C. (Maxine) Dryden of De Soto; eleven grandchildren, including Fred Jr., Charles and Larry Hacke of Granite City, 16 great grandchildren, three sisters and nieces and nephews.

## Venice Seeks Federal Grant for Planning

The Venice city council took its first steps Friday night, toward setting up a city planning and zoning plan to be carried out by its newly established commission.

The Plan Commission was created by ordinance Dec. 3 and members of the nine-member commission were appointed by Dr. John E. Lee, mayor of Venice, in a meeting two weeks ago.

A resolution initiating a report for federal funds to make studies necessary to establishment of a city plan was approved by the council Friday night.

The resolution authorizes the Southwestern Illinois Metropolitan Area Planning Commission, which has been engaged to set up the Venice plan, to ask the Illinois Department of Business and Economic Development to seek federal funds for the study.

Funds for such planning are available through the Housing and Home Financing Agency, but applications for allotments must be made through the state.

Venice, as well as Madison, created a planning unit after agreement with the carriers' Association. That agreement provides that appointments and promotions will be made on the basis of merit and seniority.

Noud said the appointment of Lux by former Postmaster Harry R. Johnson, who retired in April 1965, "was purely a political appointment."

Lux, he said, had only three years experience as a post office clerk, while each of the other applicants had more than 22 years experience.

"This is a matter of principle," Noud said, "since the seniority and merit system is the only hope of veteran postal workers' advancement. The job should have gone to Lawrence Jones, a letter carrier with 27 years seniority who applied for it. I don't believe postal appointments should be political."

Noud said he first wrote to the U. S. Civil Service Commission Feb. 19, but was referred to the Civil Service Commission office in Chicago and then the regional office where he filed a grievance in September.

## Train Hits Auto

Daughter of Mr. and Mrs. Paul W. Ford, 2304 Kirkpatrick Homes, escaped serious injury when she was hit by an unknown auto at 4:30 p.m. Thursday in front of her home.

She was taken by her mother to St. Elizabeth Hospital with pains in her upper right leg and was sent to a doctor's office.

Witness said the girl ran in front of a car, the driver of which slammed on his brakes and skidded, but she was not struck. The driver continued on his way, apparently believing he had avoided the accident.

Two men were hurt in a collision at 20th street and Edwardsville road at 12:35 a.m. Saturday.

They were Earl Phelps, 53, of 408 Warnock avenue, right shoulder injury, and his passenger, Charles Cromer, 38, of 170 Rhodes street, Madison, sore neck and abrasions to left knee, wrist and elbow. Each was treated at St. Elizabeth Hospital and then released to return for x-rays.

There was damage to the rear of Phelps' car, which was making a right turn to go south on Edwardsville road, and the right front of the southbound auto of Charles L. Burns, 30, of 1831 Edwardsville road. The Phelps vehicle was towed away.

Arrested later, Burns was charged with leaving an accident scene and careless driving. His hearing was set for Jan. 18.

Granite City on a bid of \$10-322. Five bids were received, some of them quoting base prices and additional prices on a pack-

master unit and an extra seat. Mayor Lee said the Matthews bid was the best overall bid received in compliance with prepared specifications.

Other bids included Refuse Equipment Co., Florissant, Mo., \$10-625; International Harvester Co., St. Louis, \$10-615; Key Equipment Co., St. Louis, \$13-802; and B. E. Hohl, Inc., of Granite City, \$10-319. While the Hohl bid was \$3 less than that of Matthews, the offer was based on a different type of hydraulic packing unit.

In accepting the Matthews' bid, the council also approved an additional \$51 expenditure to install a second seat in the truck cab.

The council received and approved an audit of McKinley Bridge operations for its fiscal year ending Sept. 30. Rinnie J. Wince, Third Ward alderman, reported that he could "see the reason for the audit, but I don't see why the council has to approve it."

Mayor Lee explained that the council accepted the audit as an indication to bondholders that administration of the bridge is being conducted properly.

Discuss Salt Storage

Charles D. Hampton, Third Ward alderman, called upon City Engineer Jack Tolliver to explain tentative plans for a new building in which to store bulk salt during the winter months.

Tolliver said he is working on plans for a building about 12,324 square feet which would contain no city-owned salt. The building would provide storage space for some street department equipment as well as a place for storage of salt.

Hampton, who had been named chairman of a committee to plan the building, asked why it was necessary to store salt. Tolliver

Klein street, Venice, the driver, and Jack Melford, 20, of 5107 Mayville road, his passenger, were admitted to St. Mary's Hospital, East St. Louis, early Saturday for treatment of head injuries suffered when the westbound car hit a utility pole in the 2200 block of St. Clair avenue.

East St. Louis Davinroy said he had fallen asleep.

She was treated at St. Elizabeth Hospital, and her car was towed to a garage.

Mrs. Adams lost control of the vehicle while reaching for her six-month-old son, John Adams, who had started to fall.

Minnie I. Shook, 39, of Poplar Bluff, Mo., was treated at St. Elizabeth Hospital at 11:50 a.m. Sunday for cuts about the head and face suffered in an auto accident at Third street and Broadway in Venice. She told Venice police she lost control of her car on rain-wet pavement as she was headed west on Broadway. The car skidded into a power pole on the north side of the street. The woman was taken to the hospital by ambulance.

## Mosenthein Island Title Transfer

Officials of the Granite City Trust & Savings bank denied today that the bank has acquired title to the 808-acre Mosenthein Island in its own behalf for development "for any other purpose."

Both Henry Karandjeff, President of the board, and Ernest A. Karandjeff, bank president, said there has been no transaction for transfer of title to the property to bank ownership.

The statement followed reports of a recent real estate transfer in which Roger D. McCracken, St. Louis, transferred the island to Granite City Trust & Savings bank as trustee.

The island is situated in Venice township and is the west part of Granite City Township. It was owned by the Niedringhaus Trust.

Ernest Karandjeff said it is possible title to the land has been transferred to the bank in a land trust transaction, but there are so many of these that I am not aware of this particular instance.

Karandjeff said this is a normal procedure, particularly among real estate dealers who put their property in trust with the bank to expedite transfers in the normal routine of buying and selling property.

Transfer of the title to the island, also known as Mosenthein or Willow Island, reportedly was handled by a St. Louis lawyer who could not be reached today for clarification.

It is reported that the island has been several proposals to develop the island as a recreation area.

GRANITE CITY TRUST AND SAVINGS BANK

Granite City, Illinois

January 10, 1966

DEAR FRIENDS:

As the new year begins and we look back at last year's accomplishments, we see many blessings for which we can be thankful.

At Granite City Trust, 1965 was an especially good year. We were fortunate to have an exceptional growth in our deposits and a large increase in our general business.

But, of course, credit must be given where credit is due. It has been the loyalty and support of our many customers, throughout the Quad-Cities, that has made it possible for us to have these achievements. # Warriors, Trojans Win Conference Cage Games

ALI, OUT EFFORTS are exerted by Venice's Wilson Hundley (54) and Western Military's Fred Watts (55) in a game at Venice Friday night. Rich Essington (24) jumps in an attempt to get the loose ball, and Jerome McGlone (44) looks on. Venice won possession of the ball, and won the game 84-41.

## Stretch Winning Streak to Five Games, 70-61

Granite City's high-flying Warriors won their second Southwestern Conference game of the season and stretched their current winning streak to five games as they downed Wood River 70-61 on the Oilers' court Friday night.

Terry Moore, Granite City's 6'7" center, limited the Oilers' Jerry Harrison (6'7") to only 11 points and dumped in 19 himself to earn scoring honors in the game.

Larry Ripka, Warrior playmaker, hit on seven baskets and three free throws for 17 points, while Jim Hentzel and John Stuart added 12 and 11 points.

Granite City hit for a game total of 55% from the field. The Warriors never shot below 50% in any quarter, and hit on 62% of their shots in the second period.

At one time during the second period, Granite City held a 30-20 lead, but Wood River trimmed that down to only five points, 33-28, halftime. Third-quarter score was 51-44.

Moore and Ripka combined to steal a number of Oiler passes under the basket and led the Warriors in outbounding Wood River 27-26.

Granite City turned back a Wood River bid for the lead in the fourth period when Moore hit on three field goals. Ripka made a field goal and added a free throw to give the Warriors a five-point lead late in the game.

The Moore-Ripka scoring punch accounted for 12 of the Warriors' 18 points in the third period.

Wood River's Mike Prang drew his fourth foul with 5:11 left in the third period and was benched by coach Dean Calvin.

Moore played the whole game with success, but fouled out with six seconds remaining in the last quarter.

It was the eighth win against five setbacks for Granite City and the second win against four losses in league action.

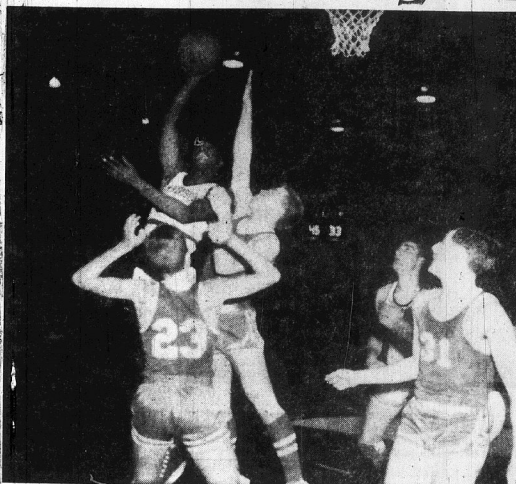

Wood River now has a 1-3 conference mark and 6-6 overall record.

A LITTLE ARM HOLDING by Bethalto's Bill Sheppard proves inadequate as Madison's Dale Turner lets go a one-handed jump shot during third quarter action at Madison Friday night. No foul was called, and Turner made the basket enroute to Madison's 73-54 Midwestern Conference victory. Ron Norris (3) and Dennis Wilshetz (31) of the Eagles await a possible rebound.

## Turner, Burt Net 41 Points for Trojans in Game

Two of the smallest players for Madison turned out to be the big players as the Trojans handed Civic Memorial of Bethalto a 73-54 defeat at Madison Friday night.

Ron Burt, and Dale Turner, both under the six-foot mark, poured in 41 points in the Madison victory.

Turner shot he made were the fabulous shots he made were typical for a Turner performance. He connected on shots around under and away from the baskets, jumped, bent over backward and stretched his way toward the bucket and 28 points, Burt netted 13 for the game.

Burt, the ballhandler for the Trojans, shot from outside like he owned the net and was a key to controlling the ball; when he wasn't playing offense, he was stealing the ball from the Eagles.

The Trojans took a 19-16 first-period lead, and continued to lead throughout the second quarter.

60 Foot Shot

The Eagles' Bill Stoller, with the scoreboard showing two seconds remaining in the half, made a mighty heave of the rebound and bounced it off the backboard from 60 feet away for two points.

Madison held a 36-30 lead as the teams headed for their dressing rooms.

The third quarter was Turner's, and the senior sensation hit on five baskets and one out of two free throws for 11 of Madison's 20 points in that period, which ended 56-44.

The Trojans were leading by 14 points late in the fourth period when Burt stole the ball and made a layup. Bethalto's Jim Sheppard fouled him in the act of shooting, and Burt made the free throw.

Both teams had slightly "off nights" from the charity line. Madison hit nine of 15 for 60%, and Bethalto made 14 of 25 for 56%.

Geroff Leads Rebounding

Steve Geroff, the tallest Trojan on the floor at 6'11", did alert rebounding and pulled 13 off the boards. Turner netted 11 rebounds for Madison.

Stoller, shooting from everywhere outside the key, connected on five of eight shots and added five free throws for 15 points, the highest total among Bethalto's eight players who saw action.

Gary Lusk, left-handed Madison sophomore, helped the Trojan attack in the second quarter with three buckets for six points. Turner led Madison with seven points that quarter.

Madison now stretches its Midwestern Conference mark to 3-4, and sports an overall record of 8-3.

The Bethalto Eagles are 0-2 in conference action and 5-6 overall.

Prather's ninth grade basketball team hit on 64% of its shots from the field and on 21 of 29 free throws to upset Roxana 69-48 in a Madison County junior high conference game at Prather Thursday.

The Chiefs took a 35-17 half-time lead and never were headed as Roger Belshe led all scorers with 19 points.

The eighth grade team lost to Roxana 37-25, also at Prather Thursday night. Roxana jumped to a 10-2 first-quarter lead and the Chiefs could not match their foes in scoring. Stan Gorey was high for Prather with 10 points.

## GC Wrestling Squad Beats Ritenour, 2nd at Lockport; 1st Loss for Andria

The wrestling squad at Granite City high school won a dual meet at Ritenour (St. Louis) 24-12 Friday night, but ran into stiff competition at the Lockport Invitational and finished second behind Pekin Saturday. The Warriors scored 88 points and Pekin had 45.

Eight Granite City matmen won on decisions and the four others lost on decisions Friday. There were no pins in the match.

At the Lockport tourney, the Warriors had only three weight class champions. Bill Fuchs, 95 pounds, Joe Martinez, 110, and Mike Reynolds, 112, won championships.

Fuchs continued his perfect record with three wins over the season. He now is the only Warrior still undefeated, with a 17-0 record.

Mike Andria, 133 pounds, had been undefeated before the Lockport tourney but lost to Pekin's Rick Coleman 5-3 in the finals of the tournament. He now has a 17-1 mark.

Jim Valicoff lost his first match but won the second in the tourney. He now has a 13-2 season mark.

Pekin 95, Granite City 88, Carl Sandburg 67, Lockport Central 64.

# Venice Posts 84-41 Victory Over Western Red Raiders

Venice's Red Devils continued their bid for the top overall season record among area teams with an overwhelming 84-41 win over Western Military Academy at Alton at Venice Friday night.

The game leaves Venice with a 13-1 season record and Western with a 6-5 mark. It was the 25th consecutive setback for WMA, which has won only one game since late in the 1964-65 season.

Percy Dillon, playing only three-fourths of the game due to five fouls, led the Red Devils with 19 points. Rich Essington scored 16 points for Venice.

Fred Watts and Pat Harper netted 10 points apiece for the Red Raiders.

Coach Bill Ohlendorf used 12 players in the game, and nine of them cracked the scoring column. Only the five starters scored for Western.

Venice took a commanding 24-8 first-quarter lead and the Red Devils never were challenged.

WMA staged a last-quarter scoring barrage, but even then could not match Venice.

## Warriors Clash With 1, Maybe 2, Old Foes

The 19th annual Dupo Invitational basketball tournament could be more than just another tourney for the Granite City Warriors.

The tournament begins Tuesday at 7 p.m. with Granite City meeting host team Dupo, and runs through Saturday night, with eight teams participating.

In earlier season action, the Warriors fared poorly. They lost to the time of 8:37 at Granite City.

Provided that the cards fall right, and the proper teams win, Granite City could get another look at Northwestern Conference foe Belleville in either the championship or consolation rounds.

The Warriors, along with Dupo, Freeburg and Jerseyville, are in the top bracket, while Belleville, Roxana, Belleville Alholf and O'Fallon are in the lower bracket.

If the cards fall another way in the first-round action, the Warriors may have a chance to meet Roxana. In earlier contests, Belleville beat Granite City 58-51, and the Warriors humbled Roxana 91-67 in the season opener.

Belleville won the tourney last year. Granite City was second and Dupo finished third, with Freeburg winning the consolation title.

No matter how it is figured, the Warriors will have one game, and most probably two games, with teams encountered before.

Tournament seedings have not been issued, but it is obvious that Belleville, based on its winning the tourney last year, should get the top seed.

Granite City, playing in the upper bracket at 7-5, could announce Harold Brown, superintendent of parks and recreation.

Deadline for the sale is Jan. 31. Brown has 150 tickets and can get more if the demand is great enough.

# 'Wild Child', 'Saggy' Take Pony Honors... Again

Edward "Saggy" Ennis of Mitchell received the Missouri Horse Show Association's award for the top point Shetland pony in the Roadster Show Division at that association's annual awards meeting in Jefferson City, Mo., Saturday.

It would be more correct to say that "Jerri Lynn's Wild Child" (the pony) won the award and "Saggy" accepted it.

It was the third year in a row that the "Wild-Child" (official name) and "Saggy" (nickname) won the title.

Ennis was a horse trainer in days past, but when his daughter, Jerri Lynn, was born he got her a pony. Since then he has given up the horses for the ponies.

"I first got her a pony to ride on. You know, all kids like ponies and I wanted her to have one," Saggy related.

"After a while, I got another and another, and started entering them in shows," he added.

"The competition is based almost entirely on their appearance and grooming."

Ennis said his great son much that today he is one of the top pony trainers in the midwest and the nation.

His daughter, an 11-year-old sixth grader at Mitchell grade school, has inherited her father's interest.

"She helps me show them, and most of the time she wins the awards," he said with fatherly pride.

"Showing the ponies is a family affair. Mother helps groom them, and Jerri Lynn and I show them," Saggy said.

**Proven Success**  
Despite the proven by more than 100 trophies, plaques, ribbons and certificates, he shows ponies for the enjoyment and pleasure he and his family get from it.

This past year, when Ennis could not take Wild Child to an area show as the Adams family ponies went to Wild Child Refuge, he held a fantastic point lead of 59 over second-place Adams.

"A lot of the people who show ponies drive hundreds of miles just to see a show. They always stop here to talk or see the ponies I have," he commented.

**Seven Ponies in Stock**  
Right now, following an addition to the stable area on their property, the Ennises have seven ponies.

"I've got one two-year-old, and some day she'll be something to see," he commented.

**90-Day Trial**  
He declined to say how much he had been offered for Wild Child, but did say that when he originally purchased the stallion six years ago it was on a 90-day trial basis.

Obviously enough, the 90 days have elapsed, and Wild Child, 6000 hunters were disappointed.

The best thing to do is stay in your car in the right line.

**STRUTTING HIS STUFF**, "Jerri Lynn's Wild Child" draws sulky with owner Edward "Saggy" Ennis holding the reins during an O'Fallon horse show. Ennis and the horse received the Missouri Horse Show Association's top award for the roadster division for the third year in a row.

"Wild Child" is at present one of the most famous Shetland ponies in the country. In competition, it has been extremely rare that the stallion has not won first place.

"Several people have offered to buy him from me, but it's my daughter's horse," he said.

But is nationally-known in this. Probably the most notable performers by "Wild Child" have been against the international known Adams Pony Farms. The Adams Farms have finished second to the Wild Child-Ennis family in the last three years.

This past year, when Ennis could not take Wild Child to an area show as the Adams family ponies went to Wild Child Refuge, he held a fantastic point lead of 59 over second-place Adams.

"A lot of the people who show ponies drive hundreds of miles just to see a show. They always stop here to talk or see the ponies I have," he commented.

**Seven Ponies in Stock**  
Right now, following an addition to the stable area on their property, the Ennises have seven ponies.

"I've got one two-year-old, and some day she'll be something to see," he commented.

**90-Day Trial**  
He declined to say how much he had been offered for Wild Child, but did say that when he originally purchased the stallion six years ago it was on a 90-day trial basis.

Obviously enough, the 90 days have elapsed, and Wild Child, 6000 hunters were disappointed.

## Vandals Spoil GC Fans' Delight at Oilers Game

Followers of Granite City basketball are finding problems in driving cars to road games. Three local residents reported damage to their autos while they were parked on the Wood River high school parking lot Friday night.

Peter Dychaw, 3013 Dale avenue, told Wood River police all the wires in his engine had been ripped out and the sun visors torn while he was watching Granite City-Wood River basketball game.

Jerry Duncan, 3246 Franklin avenue, reported that the top of his convertible has been slashed and the radio aerial broken off. Leland Harner, 2141 Cleveland blvd., said vandals punched three holes in his convertible top, broke the rear window, ripped off a mirror and broke the aerial.

Wood River police said vandals did similar damage to two cars owned by Wood River residents.

By Mike Gremard  
Press-Record Sports Editor

Ever since the first Brooklyn fan threw his beer bottle at an umpire and called him "blind as a bat," sports fans have enjoyed the privilege of protesting.

Probably a more enjoyed pastime than the "wait until next year," saying, protesting comes in many forms.

There's the verbal threat: "Murder da bum!" And the threat: "Kill him! Murder da bum!"

All violence aside, sports fans have more often than not resorted to the letter as a threat, or condemnation, on the theory that the pen is mightier than the sword.

With this in mind, here are some names and addresses to which one can relieve his hostilities by mailing a letter:

National Baseball League: Warren C. Giles (president-treasurer) 2801 Carew Tower, Cincinnati, Ohio 45202.

St. Louis Cardinals baseball club: August A. Busch (president), 3836 Dodier street, St. Louis 63107.

Illinois Interscholastic High School Association: Albert Willis (executive secretary), 11 South LaSalle street, Chicago 3, Ill.

National Football League: One Rockefeller Plaza, New York, N.Y. 10020.

Baseball Rule Change Meetings Scheduled  
Three meetings have been scheduled for a "look at the rules" for Granite City park district basketball leagues. It was announced today by Harold Brown, superintendent of parks and recreation.

The league members meet at least every two years to look at existing rules and discuss possible rule changes.

The meetings have been scheduled for 7:30 p.m., Jan. 12, Jan. 19 and Feb. 25 at the park office. Leon "Rus" Chappell, park district athletic director, will be in charge of the meetings.

**Chiefs Drop Mat Meet To Florissant 33-11**

Prather is 1-3 for the season before traveling to St. Louis University high school for a dual meet with its freshman team Tuesday.

**Ervey Meat Takes Classic Bowl Lead**  
Ervey Meats won two games out of three from Lucky Cats and took the lead halfway through the season in the Quad-City classic bowling league at Bowling Sunday.

Rolling for Ervey meats, top bowlers were: Phil Boyer 290, 621; Mike Vesel 213; Al Kutzera 204; Gary Gubser 213, 237, 245, 715; and Paul Stafford 224, 215.

## Belated Christmas Story

It takes awhile for grandparents to get away from talking about their children's and grandchildren's Christmas gifts and start on their own, but one such story was making the rounds of the Quad-Cities last week involving a Granite City school administrator and his wife.

They left the area to visit a daughter and her family on Christmas Day, and both took their daughter aside secretly and individually to give her instructions on what to do Christmas morning.

### Public Accountants to Meet in St. Louis

Local members of the St. Louis Chapter, National Association of Accountants, will attend a meeting Jan. 18 at Ruger's, St. Louis, where Charles MacVeagh, manager on the Management Advisory Services Staff of Price, Waterhouse & Co., will speak. His topic will be "Building a Management-Information System."

MacVeagh received his A.B. degree from Harvard University and attended Oxford University on a Rhodes Scholarship, receiving his M.A. degree there in 1955. He is a certified public accountant of Missouri and is a member of the American Institute of Certified Public Accountants, the Missouri Society of Certified Public Accountants and the Rhodes Scholarship Selection Committee.

### Auto Window Broken

William Frazier, 2332 Lincoln avenue, reported Thursday that the rear window of his 1962 auto was broken while it was parked at home.

The administrator insisted that his wife be given her present first, and the wife insisted that the grandfather be the first to get his present. The perplexed daughter handed them both out at the same time.

You guessed it—the grandmother gave the grandfather an instant developing camera, and the grandfather had picked the same type camera to give the grandmother.

Who won—the daughter did. She got the extra camera as an extra gift.

### \$20,000 Real Estate Suit Filed in Court

Christ D. Kacaleff of Granite City has filed a \$20,000 suit against R. H. Rosenthal, Edwardsville real estate agent, in Madison county circuit court. The complaint charges that Rosenthal "willfully or negligently" permitted the sellers of a piece of property in Chouteau township to delete their signatures from an offer to purchase land for \$45,000 and that the land was later sold for \$57,000. Involved is agricultural property in the Mitchell area.

The complaint also charges that Rosenthal failed and refused to return \$1000 in earnest money paid for \$57,000. He has converted the same to his own use in violation of the regulations made and provided by the Department of Education and Registration pertaining to real estate brokers.

Kacaleff seeks \$15,000 actual and \$5000 punitive damages. Sellers of the property are listed in the complaint as Victoria Kyle, Frances Mary Ochs and Kathryn Nelberta Orwig.

### Fraudproof to Speak

Requirements necessary for good law enforcement practices and to improve adequate protection for citizens will be the topic of Madison County Sheriff Barney Fraundorf, who is to address the Brotherhood of St. John United Church of Christ, at 7:30 this evening, in the fellowship hall.

## Parking Meter Income Up \$18 for 1965

Fees and fines paid the city of Granite City through its parking meter system during 1965 increased only \$18 over the total amount collected in 1964, according to a report released by John Decher, city controller.

Although collection of meter fees during the 12 months of last year totaled \$33,321, the amount was a decrease of \$750 from the \$34,071 collected during 1964.

Total fines for the year, however, amounted to \$3611, an increase of \$107 over similar collections of the previous year and more than enough to offset the decrease in meter fees.

These figures represent total collections of \$38,932 in both fees and fines for the 1965 year, and \$38,611 for the 1964 year.

Despite the slight overall decrease, the slight average increase during 1965 was \$126, compared to \$124 during 1964, but this was due to the fact that there were 305 operating days for the meter system last year, while in 1964 the meters were operated on 299 days.

Rev. Bajus is now serving as pastor of the Evangelical Lutheran Church in Northridge where the congregation, under his leadership, dedicated a new church in 1937.

### Fifth Highest Month

Fee collections in December, last month of the year, amounted to \$2978 which made it the fifth highest month of the year in this category. Coincidentally, it was the fifth highest month for total payments of \$309 during December.

Mr. Decher also ranked it as the fifth highest fine collection for the year, and the overall total of both these items amounted to \$3437, which was the fifth highest aggregate for the year.

Largest collection of fees during the year was made for the month of November, amounting to \$3596. The largest amount of fines paid in any single month of the year also occurred in November. Fines totaled \$622.

This made a November total of \$4213, which was the largest aggregate of fines and fees to be collected for any single month of the year.

In June, fees amounted to \$3343, \$3528; September—\$2731, \$482; October—\$3665, \$329; November—\$3596, \$622; and December—\$2978, \$309 and \$3287.

An initial meeting is set for Thursday and Friday in Chicago to prepare curriculum guidelines for all schools interested in modifying existing practices in order to meet individual differences more adequately among their school populations; and to promote field testing of identified "best practices" for counteracting school dropouts in various school systems where intensive study of the curriculum problems have not yet taken place.

## Levee District

rental fees charged against property owners in all areas that back into the system.

The plant was designed originally to serve Madison, Venice, Brooklyn, National City, Fairmont City, Washington Park, Caseyville, the Rosemont area of East St. Louis, Swift & Co. and St. Louis National Stockyards. All of these are under orders of the Sanitary Water Board to initiate sewage treatment facilities and eliminate pollution of the Mississippi River.

### Believed Fee Too High

Considerable debate ensued among Venice and Madison officials as to whether those communities would join in the levee district program because the monthly rental fee at that time was computed at a minimum of \$1.69 per month for each householder.

Both Dr. John E. Lee, mayor of Venice, and Mayor Stephen Maerz of Madison regarded this as too high. Lee and Maerz at one time considered construction of a joint Venice-Madison treatment system and it was suggested by others that a Granite City-Madison-Venice treatment plant would be the most economical.

Collinsville, which is not under a Sanitary Water Board order, came into the picture through the necessity of expanding its construction of an additional city sewerage system. Since treatment plant would be necessary, the feasibility of discharge into the levee district was studied.

Levee district system was studied. Collinsville agreed to join in the program last year and signed a commitment with the levee district. That city's share of monthly rentals was viewed as meaning a substantial reduction in the minimum monthly rate, to approximately 90 cents a month. On that basis, Venice and Madison

signed contracts to participate in the levee district plan. Defeated by Collinsville Voters Last summer, however, Collinsville residents petitioned for a referendum on a proposal to sell revenue bonds for sewer improvements. The proposal was defeated 937 to 1615.

According to Pete Schmaier, Collinsville city clerk, the bond ordinance contained financial provisions under which Collinsville would be able to participate in the levee district sewer plan. With defeat of the bond issue, city officials notified the levee board that it would be impossible for Collinsville to take part in the program and that its contract

therefore should be canceled.

No Action on Letter No action on that letter has been taken by the levee board, and none is intended, Sprague said, adding that "the next step is up to them." He said the levee district will hold Collinsville to the contract.

Schmaier said it will be impossible for the city to participate, since funds are not available for construction of levee lines to join levee district trunks in the vicinity of State Park Place.

Meanwhile, the levee district has scheduled monthly rental rates of \$1.15 per month for less than 500 cubic feet of water used; \$1.35 for 500 to 800 cubic feet, and

\$2.10 per month in excess of 800 cubic feet. Additional fees would be charged for each 100 cubic feet over 1100.

It is on the basis of these rates that the sewer administrative staff will begin monthly billing for use. Some time in April, more than a year in advance of the anticipated completion of the treatment plant.

The early billing is necessary, levee district officials said, because payments under the district's \$1,600,000 bond issue will fall due prior to completion of the treatment plant and inauguration of the system.

Short cuts to success often prove to be the longest route.

## Calling All Home Makers

By AARON FREDMAN

SEVEN RULES TO HELP IN DECORATING

1: Let your home reflect your own personality. Learn from — but do not copy — your friends and neighbors.

2: Combine beauty with comfort. Choose furniture that's lovely to look at and to live with.

3: Don't overcover rooms.

4: Use color lavishly, whether you like monotonous, harmonizing or contrasting color schemes. Avoid drabness.

5: Mix — don't match. Mix periods, wood finishes, and fabric textures so that each item in the room will have a character of its own. Your items do not have to MATCH but they must BLEND together beautifully.

6: Use your imagination, have the courage to express yourself and keep in mind good taste.

7: Sketch a lay-out of your room. In a new home this can be done right on the plans. Your furniture dealer can help you — and we invite you to come in and take advantage of our free decorative service.

So, remember, when shopping, our decorating and sales staff here at Fredman Bros. Furniture Co., Nidringhaus and Delmar Ave., in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 8:30 p.m., other nights until 5:30 p.m.

Petrilli said the camp had been established about five years on property donated by the late W. W. Ferguson, a well-known Alton philanthropist. The project is maintained with supplemented funds from various groups, including the Quad-Cities United Fund.

The director was introduced by Dr. Raymond Troyer of Southern Illinois University-Southwestern Campus.

### VA Hospitals Require Social Security Data

Veterans seeking treatment in Veterans Administration hospitals should be sure to have their Social Security numbers with them.

VA needs them for the uniform filing system it started setting up in all its hospitals Jan. 1.

VA's Information Service explained today that heretofore each hospital had its own filing system by admission numbers.

This has resulted in delay and insufficient identification in transmitting records when a veteran is hospitalized by VA elsewhere.

Now, uniformity will be obtained by filing each admission under the patient's Social Security number.

Most veterans already have Social Security numbers, VA said, adding that those who don't should get one.

## 'Tree of Lights' Donations Break Record

A final report on the Salvation Army's 1965 "Tree of Lights" campaign was released today by Lt. Ronald Gorton, local commanding officer, who announced that contributions totaled \$8240, exceeding last year's figure by more than \$2000. Estimated value of food, clothing, toys and other gifts dispersed to needy Quad-City families through the Christmas giving program amounted to \$9658, he added.

Actual cash donations totaled \$5482, the officer said. Additional donors of \$25 or more, whose not previously listed on the "Tree of Lights" honor roll, are Illinois Power Co., Mr. and Mrs. Herbert V. Watts and the Madison police department.

Lt. Gorton reported that generous contributions of canned goods, toys and volunteer help were responsible for the record-breaking fundraising drive. He cited the Women of the Moose, Chapter 247, whose members assisted in the toy shop; the Harris School Mothers Club, its

affiliated senior Girl Scout troop and the Salvation Home League, who helped in packaging and distributing the 450 food baskets.

Other organizations which provided volunteer help included the Granite City Rotary Club, Emerson PTA, Business and Professional Women, Young Republican Club and Utility Workers' local. Lt. Gorton said, with supporting efforts from a Granite City high school band ensemble, the high school's Madrigal Singers, and Quad-City Girl Scouts.

In addition to large quantities of food items and toys donated by local groups, the officer reported that candy treats for youngsters were received from Madison American Legion Post 307.

Through the "Clothe-the-Child" program, 477 new articles of clothing and shoes, plus 850 used clothing items were distributed to needy school children, with

the new items valued at \$3331, if purchased had been made by the individual child.

Estimated value of used clothing and shoes was \$129, bringing the cash value of the entire program to \$3660, Lt. Gorton reported. He added that participating students were escorted to local retail stores, where the new items were obtained, some at greatly reduced cost.

**Toy Distribution**

A total of 943 new and used toys with a value of \$1438, was distributed in the Salvation Army's toy shop project, Lt. Gorton explained. Over 520 toys were allotted with gift baskets, 275 toys distributed by other charitable groups; 101 at the Salvation Army's annual Christmas party; 32 to youngsters at the Maryville Children's Home; and 14 at Scott Air Force Base Hospital. More than \$600 in recreational toys were donated to the program, the officer said.

Christmas baskets dispersed, included 4134 individual meals for nearly 1400 persons. Food purchased totaled \$2085, with the remaining items donated at a cost of \$2157.

Under the SA's League of Mercy program, 286 gifts, 286 Christmas publications, 800 cookies and 200 coffees were distributed at Scott Air Force Base Hospital; 58 gifts, 90 treats 58 publications and 116 assorted items at Madison County Nursing Home; and 40 gifts, 48 ice cream treats and 144 cookies, at the Maryville Children's Home, with a total value of \$441.

During the Yuletide season, Salvation Army Golden Agers were served 32 meals, received 32 gifts, 46 publications, 32 treats; and 57 other items, costing approximately \$78.

## Sheiff Proposes Tax To Fire More Deputies

Madison county Sheriff Barney Sheiff is proposing that a referendum be held on a special two-cent tax to finance an increase in the number of sheriff's deputies.

In a letter to the county board of supervisors, Sheiff noted that the state statutes permit such a tax levy if approved by the majority of voters in the county. The county board first would have to call a referendum.

The sheriff said many complaints are being received by his office concerning the lack of police protection, including Mitchell, State Park Place and other popular sections of the county.

He noted the stringent financial condition of the county, a reason used for not increasing the size of the sheriff's department in the past, and suggested that other ways be found to raise revenue.

In adopting the new county budget last month, the county board provided for three additional deputies, increasing the number of night riders from 12 to 15. One officer deputy and a jailer-night rider have resigned recently.

## Minor Change Proposed In County Liquor Law

The liquor control committee of the Madison county board of supervisors suggested one minor change in a proposed new county liquor control ordinance at a meeting Thursday in Edwardsville.

Martin G. Schaefer, committee chairman, said the committee recommended that township election days be placed on the list of days in which taverns and bars must be closed.

The ordinance is to be presented to the county board at its Jan. 19 meeting but must first be approved by Harold Landolt, county board chairman and county liquor commissioner. He is a hospital patient and did not attend the meeting.

Joseph Bartylak, state attorney, also is a hospital patient with a severe respiratory ailment, but he left his sick bed long enough to attend the meeting.

## Meeting Tonight on Sewers For Areas of GC Unserved

Tonight, the second Monday of the month, represents a night off for most Granite City council members, but many will be attending a 7:30 meeting of the Special Pollution committee in the city council room on the third floor of the city hall.

The committee headed by Alderman Charles Moerlein, has called a meeting to outline a plan for getting sanitary sewers in areas of Granite City now unserved.

The program has been under way for many years but has gained momentum last year when construction was started on

the city's sewage treatment plant.

The committee has invited aldermen of each ward in which there are areas without sanitary sewers to attend tonight's meeting, and individuals living in the areas that do not have the service also are invited to attend.

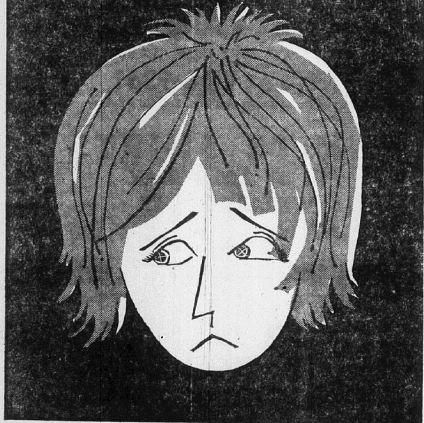

Petitions will be distributed for circulation to determine if there is sufficient interest in the area to warrant a revenue bond issue for construction of trunk lines.

Moerlein said no cost figures are yet available, but he figured it would be comparable to the charges in the Nareok area—\$250 a month rental plus a \$50 to \$45 tap-on fee. In addition, after next spring when the sewage treatment plant is placed in operation, all Granite City households will be charged 90 cents a month to retire the \$1,225,000 revenue bond issue for construction of the plant.

City ordinance requires all Granite City residents and businesses to be connected onto sanitary sewer lines, but in some areas there are no trunk lines providing service. These areas include North Granite and sections of Cayuga street, Rock road, Nevada avenue, Denver street and Mercer drive.

Madison County Farm Adviser

### Problems With Silage

High-moisture or wet silage usually doesn't provide all the dry matter and nutrients needed by dairy cows, as emphasized at the recent county dairy school.

In most cases it may take three times as much high-moisture silage to provide the same dry matter and feed nutrients as one pound of low-moisture silage. Dairy cows simply can't eat enough of the high moisture material to satisfy their nutrient requirements. The result is lower milk production.

Dairymen who have high-moisture or wet silage to feed this winter can keep milk production up by supplementing the silage with other feed. Giving cows free access to high-quality hay is probably the best and easiest way to provide extra dry matter and nutrients.

Feeding extra grain also furnishes the necessary feed nutrients needed to maintain milk production.

Skimping on bedding for your dairy cows might be an expensive way to save money, another important management item discussed at the dairy school. Most important loss could be in lower milk production.

Cold, wet, uncomfortable cows do not give as much milk as they could give. They have to use too much of their energy to maintain body temperature.

In addition, letting cows lie on cold, damp concrete floors is a direct invitation to udder trouble. Plenty of good bedding is one of the best defenses against mastitis.

Bedding also helps prevent injury to cows from slipping. And it absorbs the liquid portion of manure, preserving it for use on fields.

Wheat or oat straw is probably the best bedding material available. Cornstalks might be the answer for dairymen who don't have enough straw.

When using cornstalks for bedding, use a field chopper set for making corn silage to pick up the stalks. Chop them up, blow them into a wagon and haul them into the barn for bedding.

### Creating Plant Varieties

Breeding plants to create new varieties and improve old ones is a hobby in which nearly everyone can participate.

The crossing techniques are easy to learn, and people can experiment with many kinds of plants. They can learn all about this interesting hobby by writing to the farm adviser's office at Edwardsville for University of Illinois Circular 817, "Plant Breeding as a Hobby."

The hobby could be of special interest to senior citizens in the community because it requires little physical effort or mobility.

The circular contains a section on the fundamentals of plant reproduction that explains the kinds of reproduction, parts of the flower, types of flowers, pollination and fertilization, and heredity.

The section on general breeding techniques includes information on equipment, breeding, selecting the parents, pre-pollination and post-pollination steps and observation of results.

A final section lists breeding experiments that can be done by amateurs with corn, squash, tomatoes and chrysanthemums. Also included are a list of helpful books on plant breeding and an explanation of common plant breeding terms.

### Two-Day School

The annual two-day school of the Madison-St. Clair-Monroe Vegetable Growers' Association will be held Jan. 16-19 at the association hall near Caseyville. It is sponsored jointly by the association and the University of Illinois Cooperative Extension Service. Most of the speakers will be university staff members.

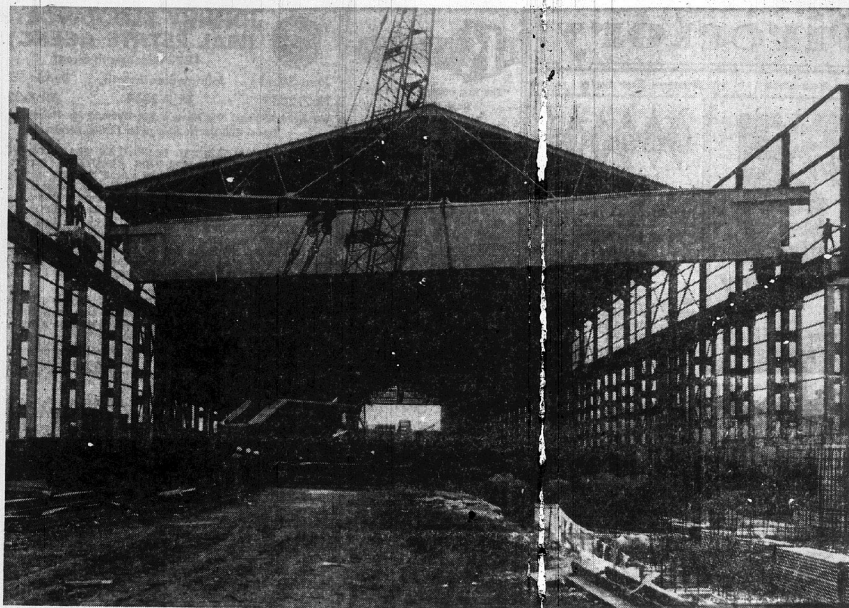

Subjects on this year's program include farm labor laws, horseradish breeding and testing, control of insects, weeds and diseases in vegetables, mechanical harvesting, irrigation, new sweet corn varieties, roadside marketing, sweet potato growing, soybean diseases and small fruit production. Noon dinner will be served each day by growers' wives.

Printed programs will be mailed to the vegetable growers and are available at the farm adviser's office to other interested persons. The school is open to the public.

Newly-elected officers of the Vegetable Growers' Association are Robert Fournie, president; Roy Walker, vice-president; Cy Weissert, secretary; Martin Birk Jr., treasurer; George H. Willard, Homer Bruns, Lester Keller, Louis Strackelmann, Robert McMullin, Robert Lobstone and Harley Willard, directors.

### Pan Vegetables For Good Flavor

If your family is tired of vegetables prepared in the usual ways, then try pan-frying them. Pan-frying is a simple, quick method of cooking vegetables without loss of flavor.

You might try pan-frying for such vegetables as young cabbage, carrots, onions, parsnips, potatoes, spinach and other types

of greens.

To prepare a vegetable for pan-frying, shred, dice or slice it, or cut it into thin strips. Then melt a small amount of fat in a heavy pan. Use 2 to 4 tablespoons of fat for each quart of the prepared vegetable.

Add the vegetable and the seasonings to the melted fat, and

cover the pan tightly. Heat until the steam begins to form; then reduce the heat and continue the cooking until the vegetable is tender. You'll need to stir it occasionally to prevent burning.

### Frozen Pie Baking Questions

How can I get a frozen pie to bake uniformly? Frequently the top crust is fully browned before the pie is thoroughly baked. Why? These are questions which are giving concern to homemakers.

One solution is to thaw the pie slightly before you put it in the oven. The slight thawing tends to reduce overbrowning of the

top crust before the pie is fully baked. Also, it will allow the bottom crust to bake more thoroughly. Remember, too, that if you use a glass pie pan for the baking, the bottom crust will brown more rapidly and uniformly. A shiny pan will reflect a great deal of the radiant heat of the oven and then slow down cooking.
